PROFESSIONAL EXPERIENCE

AICAN

Software Engineering Intern

Remote

August 2023 - April 2024

- Developed a customizable ERP SaaS platform using **microservices** to optimize production flows for MSMEs in the manufacturing sector, improving operational efficiency by **35%**, enabling quicker decision-making and execution
- Leveraged **Next.js, React, JavaScript, ES6, TypeScript, Node.js, Redux** and **MongoDB** database to develop critical full stack features for manufacturing job creation and process planning, adopted by more than **25 clients**
- Rewrote the data telemetry module for shop floor sensors to replace the existing HTTP-based polling with **MQTT over WebSocket**, which improved latency and reliability for real-time monitoring and reduced failure response times by **45%**

Arthur J. Gallagher & Co. (Gallagher Re)

Software Development Engineer

Remote

July 2021 - July 2022

- Worked as a **Java** full stack engineer on iFM Online, a web application for financial modeling, leveraging **Core Java, J2EE, JSPs, Maven** and **Spring**, along with CI/CD tools, contributing to the end-to-end Software Development Life Cycle
- Enhanced the platform's reliability by fixing data parsing on the backend & sterilized data fields to avoid XSS injections, resulting in a **65%** reduction in data-related errors and a **100%** elimination of identified security vulnerabilities
- Streamlined online navigation by fixing redirection issues, marking a **30%** decrease in navigation-related support tickets and improvised shorthand notation parsing on the front-end to incorporate user comments, augmenting user experience
- Engineered an impactful, client-facing visualization using **Chart.js, AJAX**, and **JDBC API** to represent net benefits versus reinsurance costs facilitating data-driven business decisions

TECHNICAL SKILLS

Programming Languages: Java, Python 3, JavaScript, C++, SQL, Bash

Web Development Frameworks: HTML5, CSS, Servlets, JSP, Struts 2.0, MVC, Spring, Express.js, React, Node.js, Django

Databases: MySQL, Microsoft SQL Server, NoSQL - MongoDB, AWS RDS

Version Control and Deployment: GitHub, GitLab, Docker, Amazon Web Services AWS, Google Cloud Platform

Concepts: Object oriented Programming, MVC, Agile Methodologies, REST APIs, Algorithms, Cloud Computing

PROJECTS

listentothis,bro - Chrome Extension to Simplify Music Sharing on Spotify [Live]

February 2025

Stony Brook University

- Developed a Chrome extension enabling instant song sharing directly into friends' Spotify playlists, streamlining music recommendation and reducing chat clutter. Live on Chrome Web Store, waiting for Spotify API's Extended Quota approval.

A Review on In-Memory Caching Systems: Scalability, Efficiency and Optimizations

May 2023

Stony Brook University. Mentor: Dongyoon Lee

- Exploring Segcache and related in-memory caching systems, focusing on scalability, efficiency, and optimizations in key-value stores like Memcached and Redis

The Evolution of Operating Systems: A Comprehensive Review of 19 Milestone Papers

March 2023

Stony Brook University. Mentor: Dongyoon Lee

- Studied OS design, system calls, schedulers, concurrency, memory allocation, file systems, virtualization, and testing

TelePhysio: Telemedicine Platform for Remote Physical Therapy

October 2022

Stony Brook University

[Java, Spring Framework, Docker, Kubernetes, Minikube, MySQL, WebRTC]

- Developed a **Java** based telemedicine application for remote physical therapy, containerized with **Docker** & orchestrated using local **Kubernetes** clusters via **Minikube**, with **Spring, WebRTC**, and **OOP** for real-time sessions and data management

EduStack: A Smart e-Learning Platform

March 2021

University of Mumbai

[Python 3, Django, Django REST framework, JavaScript, Node.js, React, MySQL]

- Engineered a **Python 3** full-stack web application, facilitating community-based education exchange via **REST APIs**

EDUCATION

Stony Brook University

Stony Brook, NY

Masters of Science in Computer Science, CGPA: 3.87/4

August 2022 - May 2025

Coursework: Computer Networking, Computer Vision, Operating Systems, Data Mining, Analysis of Algorithms

University of Mumbai

Mumbai, India

Bachelor of Engineering in Information Technology, CGPA: 8.99/10

August 2017 - May 2021

Coursework: Data Structures and Algorithms, Web Development, Software Engineering and Project Management
